PETA-Approved Vegar

PETA (People for the Ethical Treatment of Animals) continuously works in collaboration with many companies in the fashion industry to bring animal-friendly styles and designs to the market and into stores. With the "PETA-Approved Vegan" logo, consumers will be able to easily identify all products without animal ingredients at a glance.

We are very proud that our bags, backpacks, and wallets have been PETA-certified since June 2021.

EMILY &NOAH

A colourful mix of trends and shapes ensures variety with a vegan promise

With the new collection for spring and summer 2026, which is all about 'diversity', the Offenbach-based brand Emily & Noah is once again showcasing its flair for top-selling fashion trends, material innovations suitable for everyday use and emotional design, while clearly staying on course: 100% vegan, 100% diversity and always in tune with the times. The new collection inspires with a clear fashion statement that is tailored to the target group and runs through all design forms: from classic models to trendy summer styles. The inspiration for the POS was to develop a collection that looks like a well-stocked candy store: surprising, inviting and colourful. The aim is to appeal to a target group that is looking for vibrancy, colourfulness and variety in its accessories. This is exactly what the image motifs radiate, which were shot especially for the POS and social media appearances and are made available to retailers.

EMILY &NOAH

Variety of shapes spring/summer 2026.

The collection offers a comprehensive portfolio of bag shapes that is tailored to the needs of trend lovers as well as the expectations of retailers. Proven classics such as crossovers, shoppers, pouches, rucksacks, flap bags and zip bags can be found in almost every line. There are also playful highlights such as heart-shaped zip bags and trapezoidal shoppers. For individual lines, the Emily & Noah design team focuses on variety in the details, for example with the clever 'bag-in-bag' concept for transparent short handle bags. The detailed purses, which have been developed to match almost every line and are always a good idea for promotional areas or modular presentations, are perfectly coordinated with the individual designs.

Variety of colours

The colour spectrum of the collection reads like a journey from the summer meadow through the forest to the sea: from soft tones such as sand, light taupe, light yellow, ecru, crystal blue and rosé to trendy signal colours such as pink, orange and red and classic all-rounders such as black, cognac or white. The spectrum is complemented by expressive nuances such as khaki, royal blue and light grey, perfect for emotional and inspiring colour worlds at the POS or in the window.

Variety of materials

Sophisticated surface finishes and trendy materials are typical of Emily & Noah. With these, the brand not only sets trends in terms of fashion, but also in terms of quality and workmanship. Whether clearly visible Dollaro embossing in a genuine leather look, velvety suede look, transparent PU, woven straw look or denim and twill, these materials offer the right look for every style. Textiles such as canvas, polyester fabric or knitwear bring additional trend appeal to the collection and allow for diverse and, above all, consumer price ranges.

Biodegradable (Corn-)Polybags

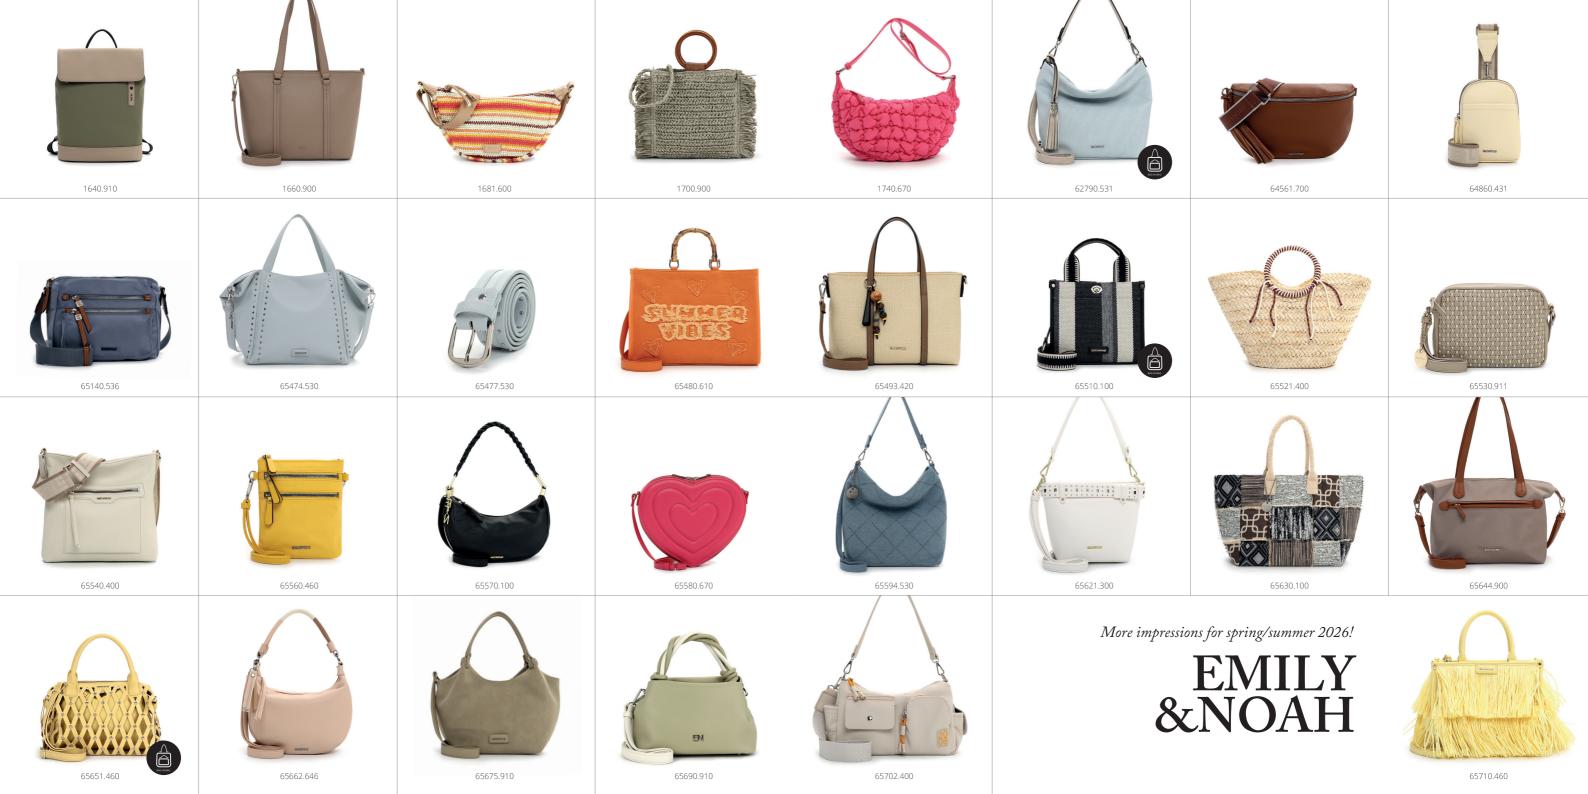

We primarily use corn as a renewable raw material for the production of our packaging bags. This means that they are biodegradable and decompose into biomass, carbon dioxide, and water during composting through microorganisms.
